WILMA HÅKANSSON

FRONTEND DEVELOPER WITH A STRONG UX AND ACCESSIBILITY FOCUS

PROFILE

Frontend developer with a strong interest in UX, accessibility, and building clear, user-friendly interfaces. I enjoy working close to designers and developers to turn complex requirements into intuitive solutions that actually work in practice. I care about structure, maintainability, and creating predictable user flows in systems where clarity matters. I thrive in collaborative environments where communication, curiosity, and a shared responsibility for quality are central to how the team works.

WORK EXPERIENCE

Frontend developer

AUG 2025 - PRESENT

Stena Metall (Internship)

- Contributed to the development of a new Learning Hub feature from concept to production, owning the implementation of responsive tablet and mobile views based on UX designs
- Translate requirements into clear, user-friendly interfaces in close collaboration with UX and developers
- Take ownership of tasks from requirements to implementation, with a focus on structure, maintainability and predictable user flows
- Integrate frontend with backend APIs and work with structured data flows in a complex system environment
- Proactively identify improvement areas in team communication and contribute to more structured and efficient ways of working

Content & Brand development

MAY 2025 - PRESENT

Freelance

- Creates visual and digital content for social media with a focus on clarity, communication and consistent brand tone
- Translates client needs into structured and visually consistent content and brand

Administrator

FEB 2024 - AUG 2024

Swedbank

Handled complex cases with high attention to detail, reviewing legal documents and ensuring accurate decision-making
